# HP Designjet 9000s Printer series

Create long-lasting outdoor signage with the fastest printer in its class.<sup>17</sup> This 64 in/1626 mm HP Designjet is an excellent tool to boost production and profitability: increase your print volume, improve your services, and reduce your costs.

- Heavy-duty HP printheads and HP supplies for maximum productivity. Experience high-speed printing with six heavy-duty Piezo printheads that come with 512 nozzles per printhead for a total of 3,072 nozzles. 1000 ml, HP 790 ink cartridges are designed to meet your usage needs.
- · Enable long, unattended print runs for improved productivity with the HP Take-Up Reel. Busy print and sign shop employees can be more productive by maximizing unattended printing with four winding modes: slack/face-in, slack/faceout, tight/face-in, and tight/face-out.
- HP Smart printing technology(2 makes HP "low-solvent"(3 printing supplies easy to use and manage. Interactive system technology in HP ink cartridges, printheads, and your printer optimizes print quality and reliability and monitors ink levels.
- Dry signs quickly and safely with the easy-to-operate HP Designjet High Speed Dryer. Add this optional high-speed dryer and accelerate drying time. Control temperature, fan airflow, and the timer from the front panel. Combine the dryer with the automatic Take-Up Reel Kit and enable long, unattended print runs at maximum print speeds.

# Vivid colors with excellent durability

- · Wow your clients with vivid color output that shines brightly. Create signs, banners, and large graphics with such vivid color, they radiate success. Sophisticated HP low-solvent ink formulations and printhead technology enable a higher concentration of colorants in the inks to produce a wider gamut of rich, saturated color. The result - more vivid color for high impact image quality.
- HP low-solvent inks excellent durability without lamination on low-cost, uncoated media. Designed with the HP 9000s Printer, HP low-solvent ink formulations produce durable prints that resist fading for up to three years without lamination and are scratch, smear, and crack resistant(4.
- · Premium image quality HP printing materials designed with HP low-solvent inks. With HP Premium Scrim Banner, HP Universal Scrim Banner, HP Premium Backlit Film, HP Blue Back Satin Billboard Paper, HP Satin Canvas, and HP Translucent PVC Display Film, get premium image quality and high opacity.
- (1 Compared to other large-format printers within the same price range. Based on the recognized standard printing mode in the digital print industry-720 dpi with four passes per color-published by manufacturers as of December 2005.
- 2 Using genuine HP supplies ensures availability of all HP printing features.

  HP "lowsolven" inks are defined according to what is currently known in the industry as low-solvent inks.

  Image permanence and application durability under typical exposure in vertical display conditions and varies as environmental conditions change.

# Better business, more profits

- Successfully compete against screen print shops for those shorter run lengths. Yes; it's true! Better business and more profits are a reality with this printer. High print speeds and low printing costs increase the break-even point against screen printers, making it easier to compete, and creating a huge opportunity in the outdoor printing market.
- Minimize your costs and get lasting output on uncoated media. Count on excellent quality output on a range of low cost, uncoated materials, such as adhesive vinyls, films, banner stocks, papers, and fabrics.

## Safety, and support - at HP, your needs come' first

- · Have a clean, safe print environment with an integrated air purifier created for HP Designjets. This printerconnected system uses a sealed, carbon-activated filter and high-powered fan to filter air at a rate consistent with the print speed and the number of volatile organic compounds released during the printing process.
- HP guidelines help make HP low-solvent ink printing safe, productive, and easy. Following HP's installation and use guidelines helps you achieve a reliable and productive low-solvent ink printing solution and helps you address environmental, health, and safety questions about printing with HP low-solvent inks. To learn more, visit www.hp.com/go/ehs.
- Designed together for HP quality and reliability. The HP Designjet printing system - printers, low-solvent inks, ink cartridges, printheads, and printing material - is engineered to work with precision and must meet strict HP quality standards. Reliable operation saves you time and improves your productivity.
- HP offers the cleaning supplies and replacement ink cartridges needed to maintain your system. HP training and guidelines help you implement environmentally responsible and safe practices for the purchase, installation, operation, handling, and maintenance of HP low-solvent printing supplies.
- Experience peace of mind, knowing you're covered with HP's award-winning service and support. HP's customer service and support backs every product with fast, knowledgeable online e-Support available 24/7 at www.hp.com/support, and easy-to-access phone support provided by HP trained agents. Plus, you can enhance your warranty protection with the purchase of affordable HP Care Pack Services.

1000 ml HP Ink Supplies

djustable vacuum system

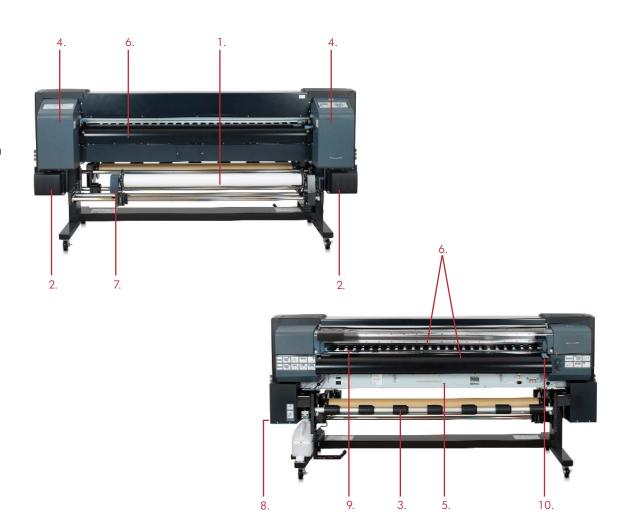

Easy media loading

# HP Designjet 9000s Printer series

- 1. Up to 64 in/1626 mm wide
- 2. Six HP 790 ink cartridges, 1000 ml each with "hot-swap", which allows you to change an ink cartridge without interrupting the print job
- **3.** Heavy-duty HP Take-Up Reel with four winding modes
- 4. Two interactive front panel
- 5. USB 2.0 Hi-speed connectivity
- **6.** 3 user-controllable integrated heaters
- 7. Easy media-loading
- 8. Exhaust attachment for efficient removal of Volatile Organic Compounds (VOC) included in the printer box
- **9.** Printhead height adjustable to 2 different positions
- **10.** Adjustable vacuum system to match media width

HP Designjet 9000s Printer (with stand assembled) including Take-Up Reel

### **Optional accessories**

- HP Designjet Air Purifier System
- HP Designjet High Speed Dryer
- Onyx® PosterShop® 7.0 for HP Designjet
- Media cover for HP Designjet 9000s series
- HP Designjet APS Filter

The HP Designjet 9000s Printer series, HP low-solvent ink cartridges, and printing material were all designed, engineered and tested together to ensure uncompromising reliability, image quality, durability, performance and ease of use. The total HP printing solution is composed of the following accessories:

# HP Designjet Air Purifier System

Put your confidence in HP. Add this air purifier system (APS) - specially designed for HP low-solvent inks - to your HP Designjet printer for highly efficient air filtration. The APS includes the tubes that connect to the printer.

Count on HP for a clean, safe\* print environment

- · Highly effective carbon filter removes hazardous substances released from solvent inks.
- Return cleaned air to the working area or divert it outside. This air purification system is equipped with a standard sealing device, and collected pollutants are led automatically through the filter.

Easily operate with front-panel display unit

- · Access air purification system data through a front-panel display unit.
- Easily replace the filter through the front door on the system.

# HP Designjet High Speed Dryer

Add this high-speed dryer to your HP Designjet 9000s Printer and accelerate drying time.

Improve productivity - dryer reduces drying time

 Dry prints as quickly as the automatic take-up reel can roll them up. With the high-speed dryer and take-up reel, you can complete jobs at a rate of up to 322 ft²/hour (29.9 m²/hour). The integrated dryer and take-up reel enable unattended print runs.

Easily operate high-speed dryer

- Completely dry prints with user-adjustable heater and blower unit. Use variable controls
  on top of the dryer unit to set the heater temperature and to adjust the fan airflow.
- Dryer's off timer allows unattended drying for up to 12 hours

Count on a dryer that was designed for safety

• Built for high-volume, commercial print environments

# Onyx® PosterShop® 7.0 for HP Designjet

Use this Onyx® PosterShop® RIP to print job after job of the best colors your printer can produce. Efficiently manage jobs and handle production with job preflight and printer queue tools.

Print the colors your customers expect

- · Make color changes to precise spots or entire images with intuitive color correction tools
- Have CMYK colors pop with PosterColor color rendering

Print and customize jobs quickly and easily

- Modify jobs and see final layout on your screen before printing with easy-to-use preflight controls technology by Onyx®
- · Print directly from your creative applications or from Hot Folders that specify job properties
- Add cut marks to your print jobs easier than ever with this RIP's contour cutting workflow

Manage media and calibrate your printer as needed

Use the RIP's default media calibration tables, or add and calibrate your own printing materials

<sup>\*</sup> When used appropriately, according to the product's guidelines.
